

PROGRESSIVE DIE & STAMPING

SFUND RECORDS CTR
2393982

Date: 11/7/19

Dear Kim Muratore,

Progressive Die & Stamping Co. is a very small company, 8 full time employees.

We have never done any metal cleaning or processing at our facility located at
1022 E. Raymond Way.

Since 1977 our process hasn't changed.

We purchase material (metal) stamp the parts, then send out for processing if
required to outside vendors (De-burring / Plating). We've never used the hazardous
substances listed in your letter.

When we do generate waste oil its from doing machine maintenance and is put in
drums and picked up by a licensed Waste Management Co & Manifested.

Thank you,

A handwritten signature in black ink, appearing to read "Kevin McGuinness", is written over the typed name.

Kevin McGuinness
